

**CONFERENCE: LEARNING SOFT SKILLS IN  
PEACE BUILDING**

**19** September  
2017

**Venue:**

Laurea University  
of Applied Sciences  
Vanha maantie 9  
Espoo, Finland

Conflict Prevention & Peace Building  
**Session one:** Keynote speakers  
**Session two:** Workshops

The GAP project develops an innovative game environment where Conflict Prevention and Peace Building (CPPB) personnel can experience a range of real-life simulated scenarios.

**Laurea University of Applied Sciences**

GAP Consortium has the pleasure to invite you to the  
"Gaming for Soft Skills" conference

The objective of this conference is twofold: Firstly to present findings concerning training design and secondly to collect good practices from military, civilian and police training experts about training practices when preparing personnel for CPPB missions. Gaming for soft skills training is gaining ground given the capacity of gaming to support reflective learning, self-efficacy and reflection on performance.

**PLEASE REGISTER**
